

PG Certificate in Managing Medical Careers

KSS Deanery and the Institute of Postgraduate Medicine (IPGM) of BSMS would like to invite applications for the new Postgraduate Certificate in Managing Medical Careers commencing in January 2011. At a time when the issue of career support in medicine has become critically important, the course is designed to offer participants an opportunity to become more proficient in the provision of career support to medical students and junior doctors.

Who Should Apply:

- Faculty Career Leads
- Educational Supervisors
- Educational Advisers
- Medical Education Managers
- Other professionals interested in medical education

Time and place

Closing date 12th Sept 2010

Part-time students will normally start in January 2011

Full details of delivery dates for individual modules will be provided to successful applicants

The course is based at the KSS Deanery, 7 Bermondsey St, London SE1 2DD

The Course

- **3 core modules each comprising 20 credits towards the Certificate**
- **Part of the Graduate Programme in Health and Social Science**
- **Progression route to either a MA in Managing Medical Careers or an MSc in Professional Development**
- **Open to students without a first degree but with substantial experience**

Modular Study

- **Sessions run by educationalists and career specialists from the KSS Deanery, senior clinicians and academics**
- **Teaching by lectures, group discussion, individual tutorials and student presentations**
- **Considerable independent study**
- **Study using a Virtual Learning Environment (VLE)**

Module MDM80

Working with individual students and doctors in training

Introduction to theoretical and practical models for understanding, evaluating and delivering effective career support in a medical education environment

Module MDM81

Working with groups of medical students and doctors in training

Introduction to theoretical and practical techniques for providing constructive career support through group learning in medical education

Module MDM82

Working within an organisation

Understanding the key current developments within medical education, the NHS and individual Trusts. Examining approaches to career management and change management in these contexts.
